# Augmented reality

## The potential applications of Augmented Reality in the promotional market

There is a lot of talk about Augmented Reality (AR) which has been a part of our daily life for some time, but what does it mean to make the most of this opportunity within the promotional market?

The technology now plays an important role: imagine scanning a QR code on a product sheet with a tablet or smartphone, the system recognising it and then perfectly mapping it to the reality that the person is experiencing at that precise moment. Or during a

presentation, when putting together a brief, to gather concrete ideas about a project.

We have always been naturally oriented towards innovation, towards the future, and we were ready to include AR in our product launches.

Augmented Reality has already been integrated in several other areas, predominantly in entertainment, and now in the world of corporate gadgets: a new tool to bridge the gap between

the company and its customers in a market where being "global" is not only a mere aspect, but an essential requirement.

AR technology has now become a fully fledged form of visual content management, allowing us to add a new dimension of information to our products by enabling customers to interact with them on a deeper level.

This has begun a revolution in the Customer Experience, with our products now able to be seen in real physical contexts to aid customers in

their selection processes, guided by the highly informative approach that sets us apart.

One thing is for certain: the status quo is ready to be turned on its head, and Augmented Reality will enable us to develop an ever wider array of applications with our imagination and creativity.

Originality, Partnership, Design

# Brand

The family of brands we have chosen to partner with is constantly expanding. Each brand is selected with care and attention and our partners entrust us with their best products. Rollink, PopSockets, Cellularline,

iDrink are just some of the brands that are part of our collection. And you know what? In this section you will also find Elements, the first brand completely conceived and created by us!

# ELEMENTS

Durable and waterproof 48-hour black duffel bag designed for practicality and comfort on all occasions. Thanks to its size and capacity of approximately 40 litres, it can be used for travel, business trips or for the gym. The adjustable and removable shoulder strap allows it to be worn on the

shoulder or carried by hand thanks to a slide handle. It can accommodate clothing, shoes, accessories, ... The internal and external pockets are useful for organising personal belongings and the strap on the back allows the bag to be securely attached to the trolley.

# Eco-friendly drinkware for responsible hydration

Eco-friendly water bottles are made from recycled materials and have a low environmental impact, reducing the need to extract new natural resources. For example, many of these are made from high-quality stainless steel sourced from recycled materials to minimize carbon footprint and energy consumption required for production.

Additionally, water bottles are often free from harmful chemicals such as BPA (bisphenol A), which is found in many conventional plastic bottles. BPA is a toxic component that can leach into the beverage and have negative effects on human health. Today, it is important to provide a safe and chemical-free alternative, allowing people to drink water or other beverages without concerns.

One of the main advantages is their durability. Unlike disposable plastic bottles that easily break or deteriorate over time, eco-friendly ones are designed to last. This means that you can use the same bottle for years, reducing consumption and waste disposal.

Some of these offer additional features to encourage a healthy lifestyle. For example, they may have built-in filters that purify water from non-potable sources, eliminating the need to purchase bottled water. There are also smart devices that can control the water temperature inside the bottle or utilize UV technology to sanitize the contents. The multifunctional design can also allow for easy and thorough cleaning, preventing bacterial buildup and prolonging the lifespan of the product.

## RPET Clear

600ml water bottle made from rPET material. This material is a sustainable alternative, as its composition is 100% recycled PET, making it more resource-efficient than regular plastic. This material makes for a lightweight, durable and transparent water bottle, while reducing the CO<sub>2</sub> emissions of

the production process. The product can be customised using digital printing, and an additional advantage is its delivery time: it is dispatched from our premises within 24/48 hours after order confirmation, and delivery takes 24 or 72 hours depending on the destination.

<b>CAPACITY</b>	600ml
<b>SIZE</b>	23,0 × 6,8 cm

## Hoco

Double-walled stainless steel thermal bottle with a capacity of 500 ml. Stainless steel is the most suitable material for water bottles as it is resistant to oxidation and corrosion, and therefore doesn't release any substance or contaminate the contents. Furthermore, due to its low conductive capacity, it

can be considered a genuine thermal insulator. This feature is enhanced by the body of this bottle: a double layer separated by an air chamber, able to keep the contents hot for up to 12h, and cold for up to 24h. Hoco is available in the natural gray color of steel, in red, blue, white and anthracite grey.

	● ○ ● ● ●

## Kubiko

3W Cork Bluetooth Speaker with an internal rechargeable 500 MAh battery and 5.0 Bluetooth version. The speaker is cube-shaped and every side measures just over 6 cm. In addition to the compact design, what makes it original is its cork finishing. Cork is a natural material obtained via easier

processes than synthetic products, such as, for example, plastic. It has a lower environmental impact both in terms of production and disposal. Kubiko is customisable on three sides (top surface and the two sides) via laser engraving.

OUTPUT	3W
SIZE	6,2 × 6,2 × 6,3 cm
MATERIALS	Cork
PRINT	Laser Engraving, Digital Printing

## Wonder

3W Bluetooth speaker in a cube shape, made from plastic but also available with a metallic finish. The main characteristic of this speaker is its truly powerful and defined sound. This product is available in a single version or in a double pack for use as a pair, thanks to the Bluetooth pairing function

in stereo mode. 4.0 Bluetooth guarantees a range of 10 metres, and the integrated battery - which can be recharged using a USB cable - guarantees 3 hours of continuous listening. The upper surface can be customised with logos and graphics using tampography and four color printing.

OUTPUT	3W
SIZE	6,0 × 6,0 × 6,0 cm
MATERIALS	Plastic
PRINT	Silk-screen Printing, CMYK Printing

## Tune

Bluetooth 5.1 over-ear headphones made of recycled plastic in black, comfortable and ideal for transport thanks to their foldable design that allows reducing their size. They are equipped with active noise-cancellation technology for optimal isolation even in the noisiest environments. There are

manual controls on the headphones to manage the volume, change songs, and answer calls without the need to interact with the device they are connected to.

●  
**SIZE** 17,5 × 19,0 × 8,0 cm  
**MATERIALS** Recycled plastic

## Echoes

Earphones with 3.5mm jack, made from recycled ABS/TPE material. This material, derived from reusing ABS scrap, gives the product excellent strength as well as resistance to potential scratches. The Echoes are available in white and can be customised

with logos and graphics directly on the product, using laser engraving and with a label tag affixed to the audio cord.

○  
**SIZE** Cable length 117 cm  
**MATERIALS** Recycled ABS/TPE  
**PRINT** Laser engraving, Label tag

## Hemp

Bamboo earphones with wheat fibre controller and hemp cable, in the natural colour of its materials, with a 55 mAh battery capacity. The back of the controller can be customized. The Hemp earphones come with a charging cable and 2 sets of spare earphones. Furthermore, the earphones

are shipped directly from our facilities within 24/48 hours of order confirmation; therefore, delivery takes place in 24 or 72 hours depending on the destination area.

**SIZE** Controller: 5,1 × 1,3 × 1,0 cm  
**MATERIALS** Bamboo + Wheat Straw + Hemp  
**PRINT** Digital Printing

## Moon

Wireless Bluetooth earphones equipped with True Wireless Stereo technology and a 3 hour battery life. The casing, circular in size and available in black, white and Pantone, also works as a charging base and comes with a 360 mAh battery. In addition, the Moon earphones come with packaging that

features a silicone strap making it easy to carry around. It can be customized on two sides of the case, approximately 6 x 5 cm wide, and on the external surfaces of the earphones with logos and graphics.

**SIZE** Ø 6,0 × 3,0 cm  
**MATERIALS** Plastic  
**PRINT** Silk-Screen Printing, CMYK Printing

# Effortless connectivity: Bluetooth 5.0 and beyond

Bluetooth 5.0 represents a significant leap forward in wireless connectivity for audio devices and has contributed to improving the wireless listening experience by bringing significant enhancements.

## Improved sound quality

This technology has introduced a higher bandwidth, enabling faster and more reliable data transmission. This results in improved sound quality, with clearer and more detailed reproduction of music, podcasts, and other audio content.

## Low latency

Latency refers to the delay between sending an audio signal from the playback device to the headphones and its actual execution in the headphones. Bluetooth 5.0 has significantly reduced latency, ensuring more accurate synchronization between audio and video, thus enhancing the viewing experience of movies, videos, and games.

## More stable connection

Wireless earbuds or headphones can establish more stable connections with the playback device. The advanced frequency hopping technology of Bluetooth 5.0 reduces interference and minimizes connection interruptions, providing a seamless and uninterrupted listening experience.

## Longer battery life

One significant advantage for devices is improved energy efficiency. This results in lower power consumption, extending the battery life. Users can enjoy extended listening without the need for frequent recharging.

## Gemini Bluetooth

In-ear headphones equipped with Bluetooth 4.0 technology with a range of 10 meters. The two headphones are connected by a cable which houses a microphone, a Micro-USB port for charging and controls that allow you to adjust the volume, answer calls and control multimedia playback.

	●   ○   ●   ●   ●   ●   ●
<b>SIZE</b>	1,8 cm + 1,8 cm
<b>MATERIALS</b>	Plastic
<b>PRINT</b>	Silk-screen Printing, CMYK Printing

## Twins

In-ear headphones with soft silicone rubber tops, available in three different sizes to ensure maximum adaptability to the ear during use. The external parts of the headphones have a large, round and flat surface that is customizable with the company logo.

	●   ○   ●
<b>SIZE</b>	1,8 cm + 1,8 cm
<b>MATERIALS</b>	Plastic
<b>PRINT</b>	Silk-screen Printing, CMYK Printing

## Pair Pod

Thanks to the integrated microphone, you can make phone calls without the need for inconvenient cables. 5.0 Bluetooth guarantees a range of 10 metres. The headphones have 55mAh batteries and offer approximately 2 hours of independent listening. To charge them, just place them into their case.

	○
<b>SIZE</b>	4,7 × 5,9 × 2,5 cm
<b>MATERIALS</b>	Plastic
<b>PRINT</b>	Silk-screen Printing, UV Printing

## Pebble

The smallest ABS wireless Bluetooth earphones in our entire catalogue. They are the size of a pebble, making them a pocket-sized product. They feature True Wireless Stereo technology and the silicone lanyard allows you to carry the headset with you at all times. The shell can be customised on

one side using screen printing or UV printing.

No more low battery blues!

# Energy & Reload

Find the charging solution that best fits your promotional idea. Choose Power Banks and Wireless Chargers for a constant supply of energy, or adapters, cables, and connectors, and customize them according to the objectives of your project.

## Lot

Metal Power Bank with a high charging capacity, with battery capacity from 17,600 mAh and up to 24,000 mAh. The casing is available in satin silver, satin gold and black and can be customised on both sides with silkscreen printing and laser engraving.

	● ● ●
<u>CAPACITY</u>	17.600 - 20.800 - 24.000 mAh
<u>SIZE</u>	15,8 × 7,7 × 2,2 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Sharp

Metal Power Bank with a rectangular shape and flat thickness. It has two USB ports: one USB-A output and one micro-USB input. It has a very large metal surface, which is ideal for customisation as it allows even large logos or graphics to be printed on it.

	●   ● ● ●
<u>CAPACITY</u>	4.000 mAh
<u>SIZE</u>	11,0 × 6,8 × 1,0 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Chunk

Polished metal power bank with a rectangular shape and medium size. The surface is embellished with a light satin effect that gives it an elegant and refined style. It also features a large print area and can be customised on both sides by screen printing and laser engraving.

	●   ● ● ●
<u>CAPACITY</u>	8.000 mAh
<u>SIZE</u>	11,3 × 7,2 × 1,6 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Ticket 3 in 1

4000 mAh power bank with plastic casing and integrated cable with 3 connectors: Lightning, Micro USB and Type C all in output. With its ultra-thin thickness, it is ideal as an emergency recharger to keep in your pocket or purse so that it is always available.

	●   ○
<u>CAPACITY</u>	4.000 mAh
<u>SIZE</u>	11,5 × 6,7 × 0,9 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Natural

5000 mAh Power Bank with a bamboo and wheat fibre shell, two environmentally friendly materials with a low impact on the environment. It is equipped with three ports: a standard USB output, a micro USB input and a Type-C input. An LED light indicates the battery charge level.

	●
<u>CAPACITY</u>	5.000 mAh
<u>SIZE</u>	6,45 × 10,1 × 1,55 cm
<u>MATERIALS</u>	Bamboo + Wheat
<u>PRINT</u>	Digital Printing, Laser Engraving

# What to know before choosing a Power Bank

The evolution of mobile devices has brought about the need for increasingly efficient and versatile charging solutions. Power Banks have become essential allies in keeping various technological devices powered throughout the day in a convenient and reliable manner.

New models have been introduced, such as wireless and induction Power Banks. The first ones utilize

Qi technology to enable wireless charging of compatible devices. Second ones, on the other hand, allow charging simply by placing the device on the induction surface.

To choose the best charging system that suits your needs, you can consider various factors that vary from person to person based on habits, lifestyles, and the devices in use.

The main elements to consider are:

### Needs

Assess the number of mobile devices you want to charge and how frequently you use them throughout the day. Additionally, smaller and lighter systems are useful for those who travel or are frequently on the move, as they are easy to carry.

### Capacity

Choose a Power Bank with a capacity sufficient to fully charge your device at least once is recommended. Keep in mind that a higher capacity may result in larger dimensions and increased weight.

### Compatibility

Ensure that the charging system is compatible with your devices and check if it supports devices with USB connection or specific options such as Power Delivery (PD) technology for fast charging.

## Jazz

Jazz is a recycled aluminium (RCS Certification) 4.000 mAh power bank with a slim, rectangular shape. Ideal for charging various devices, it has two ports: one Type-C both input and output and one USB-A output only. It comes with a USB-A to Type-C charging cable made of recycled TPE.

<b>CAPACITY</b>	● 4.000 mAh
<b>SIZE</b>	11,6 × 6,8 × 1,0 cm
<b>MATERIALS</b>	Recycled aluminium
<b>PRINT</b>	Laser engraving, Digital Printing

## Funky

Funky is a 5.000 mAh power bank and wireless charger made of recycled aluminium (RCS Certification). It features two ports: a USB-A in output and a Type-C in both input and output and a magnetic wireless charging area. Also included is a USB-A to Type-C charging cable made of recycled TPE.

<b>CAPACITY</b>	● 5.000 mAh
<b>SIZE</b>	10,5 × 6,5 × 1,8 cm
<b>MATERIALS</b>	Recycled aluminium
<b>PRINT</b>	Laser engraving, Digital Printing

## Triple

Triple is a 3-in-1 wireless charger made of plastic and silicone for charging 3 devices at the same time thanks to the charging stations for smartphones, iWatches and AirPods. A convenient and functional charging station for all smartphones and wireless headsets equipped with the Qi technology standard.

<b>CAPACITY</b>	● ○ 15W/2,5W/3W
<b>SIZE</b>	24,7 × 7,4 × 0,7 cm (open)
<b>MATERIALS</b>	Plastic + silicone
<b>PRINT</b>	UV printing

It is available in black or white and can be customised using the UV digital printing technique.

## Zeta Induction

Induction Power Bank for wireless charging with plastic casing, 5000 mAh battery with two USB-A ports, both in output and one Type-C port in input. Its surface area is about half that of a smartphone, making it perfect for carrying in a bag or pocket

<u>CAPACITY</u>	○ 5.000 mAh
<u>SIZE</u>	9,9 × 6,3 × 1,6 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Digital Printing

## Zeta Dual

Power Bank with plastic casing, 5000 mAh battery and two USB-A ports, both in output for charging mobile devices. Charging of the power bank is done via the micro USB port on the side of the product. The white shell can be customised on both sides with digitally printed logos and graphics.

<u>CAPACITY</u>	○ 5.000 mAh
<u>SIZE</u>	9,9 × 6,3 × 1,6 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Digital Printing

## Cork Power

Induction Power Bank with 8000 mAh wireless charging with a cork and wheat fibre shell, two environmentally friendly materials. It has four ports: one micro USB input, two USB output and one Type-C input. An LED light indicates the battery charge level. This power bank can only be customised

<u>CAPACITY</u>	● 8.000mAh
<u>SIZE</u>	13,5 × 7,1 × 1,55 cm
<u>MATERIALS</u>	Cork + Wheat Straw
<u>PRINT</u>	Digital Printing, Laser Engraving

on one side with digital printing or laser engraving. Another strong point is the delivery time: it is dispatched from our premises within 24/48 hours after order confirmation, and delivery takes 24 or 72 hours depending on the destination area.

### Check out the product in AR

You can scan the QR code with your smartphone to see the product in AR as if it was on your desk!

## Plate

Wireless charger with shell in wheat fibre, compatible with all devices designed for wireless charging. Wheat fibre is an eco-sustainable material that results from the assembly of natural fibre and ABS, and which represents a valid alternative to plastic products that have a greater environmental impact. In

the body there is an integrated LED that lights up during use and illuminates the edge of the shell. It uses standard Qi and functions via magnetic induction, with an energy emission equal to 5W.

●  
**OUTPUT** 5W  
**SIZE** Ø 10,0 cm x 1,3 cm  
**MATERIALS** Wheat  
**PRINT** Digital Printing

## Bamboo Round

The real bamboo shell has a round base with a micro USB port and small lateral LEDs that shine when the battery charger is connected to an energy source. This accessory is compatible with smartphones that are equipped with integrated Qi technology.

<u>OUTPUT</u>	5W
<u>SIZE</u>	Ø 9,0 cm
<u>MATERIALS</u>	Bamboo
<u>PRINT</u>	Silk-screen Printing, Embossing

## Paquito

Digital alarm clock that also works as a 5W wireless charger for smartphones compatible with wireless charging. The whole upper surface can be customised by means of LED printing, a technique that allows you to create layers of colour with a relief effect combined with the backlit LED light.

<u>OUTPUT</u>	5W
<u>SIZE</u>	11,9 × 7,0 × 3,4 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing, LED Logo

## Shuttle

A battery charger with wireless technology, meaning you can recharge your smartphone simply by placing it on the surface of the device without having to connect it via a cable. This model also features four additional USB ports to charge several devices simultaneously. The entire surface of

the plastic disc can be customised with graphics and logos using silk screen-printing, CMYK printing and LED printing, a technique that creates layers of colour with a relief effect combined with the back-lit LED light.

<u>OUTPUT</u>	5W
<u>SIZE</u>	Ø 10,0 × 1,3 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing, CMYK printing, LED printing

## Cork Pad

The Cork Pad is a mouse pad made of cork, a natural material obtained with simpler manufacturing processes as opposed to processes used for synthetic products, which also works as a 10W wireless charger for charging smartphones or Bluetooth mouse equipped with induction technology.

●	<u>OUTPUT</u>	10W
	<u>SIZE</u>	20,5 × 8,7 × 7,9 cm
	<u>MATERIALS</u>	Cork
	<u>PRINT</u>	Laser Engraving

## Double

Double is a 20W plastic wall charger that allows two devices to be charged simultaneously thanks to its dual USB-A and Type-C output. It has an extremely minimal and linear design with an angular cut-out. It is available in white and can be customised by silk-screen printing or UV digital printing.

○	<u>OUTPUT</u>	20W
	<u>SIZE</u>	3,0 × 30 × 7,2 cm
	<u>MATERIALS</u>	Plastic
	<u>PRINT</u>	Silk-screen printing, UV printing

# Reusable packaging

In recent years, there has been a consolidated trend toward the inclusion of environmental issues in the daily activities and communication of companies, and new initiatives are also being launched in this direction to facilitate the move to an environmentally friendly consumption pattern.

In this context, the use of recycled and recyclable materials is already widespread, both in the manufacturing of products and in the packaging that contains them. However, is it possible to expand the boundaries of this vision and guide one's customers in the direction of eco-friendly consumption?

This is where we got the idea of designing and developing packaging that can initially contain the product, but then offer the possibility of a different use through a change in form, making it a totally unexpected object.

Here, then, is our first small step that can make a difference in the use of materials: a fish-bone shaped cable winder can be made from the box that holds one of our water bottles. You can carry it with you at all times to keep your earbuds and electronic devices cables tidy.

Reuse and waste reduction are certainly one of the current trends, but for us they are much more than that: we recognize our responsibility as a company in reducing the environmental impact on a daily basis and we continue day after day toward the constant search for innovative and sustainable proposals.

## Globe Trotter

The Globe Trotter adaptor is cube-shaped, small and light. The prongs are all inside the shell of the adaptor and can be selected by using a pressure-scroll button. A luminous LED lights up when the adaptor is plugged in and in use. It also includes two USB ports to charge devices.

	● ○
<u>SIZE</u>	6,1 × 4,5 × 5,6 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing

## Grain

Multiple connector equipped with standard USB cable, micro-USB, Lightning and Type C, all with fast charging function for smartphones or other devices. The hub from which the cables come out is made of wheat fibre (a special assembly of ABS and natural fibre), with a rectangular bamboo insert.

	●
<u>SIZE</u>	16,0 × 2,1 × 1,0 cm
<u>MATERIALS</u>	Bamboo + Wheat
<u>PRINT</u>	Digital Printing, Laser Engraving

## Twinkle

Twinkle is a 120cm multi charger cable with multiple micro USB, Lightning and Type-C connectors with a 2A rating, suitable for charging smartphones and other devices. While charging, the cable shows a blinking LED light, and is available in red, blue, green and light-blue.

	●●●●
<u>SIZE</u>	Cable length 120 cm
<u>MATERIALS</u>	Plastic + Metal
<u>PRINT</u>	Laser engraving

## Clap

USB cable with triple Micro, Lightning and Type C connector, suitable for both data transfer and for charging devices up to 2A. When the cable is not in use, the two ends remain firmly joined together by a magnet, and thanks to the metal loop this accessory can also turn into a practical keyring.

	● ○●●●●●●
<u>SIZE</u>	12,9 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Bunch

Thanks to the double Type C connector and the Lightning and Micro 2 in 1 connector, this multi-cable allows you to connect various devices, up to 6 combinations. When they are not in use, the outer connectors remain securely fastened with a magnet, so that the cable can be attached to ties or keyrings.

	● ○●●●●●●
<u>SIZE</u>	12,9 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Braided

A 120 cm USB or Type C cable with a multiple connector for micro-USB, Lightning, and Type C, capable of delivering a 3A current and suitable for charging smartphones or other devices. The cables are coated with a braided nylon fiber fabric available in black, blue, and silver colors.

	● ● ●
<u>SIZE</u>	120 cm
<u>MATERIALS</u>	Plastic + Metal
<u>PRINT</u>	Laser Engraving

## Cord

Coloured cables with fast charging and data transfer function. With a range of 3A, they are 1 metre long and are available in two variants, Type-C and Type-C to IOS. The cables are made of alloy, ABS and fabric and are available in black, white, red, blue and green.

	● ● ● ● ●
<u>SIZE</u>	100 cm
<u>MATERIALS</u>	Plastic + fabric

USB key for your business  
from our catalogue.  
Customise more than 50

models up to 64 GB of  
capacity with company  
logos and graphics.

## Color Card Round ECO

Made of recycled plastic, round USB flash-drive that is ultra slim and small as a result of the latest generation COB chip. It is equipped with a connector that comes out from the side, and can be removed from the rest of the body to facilitate use.

<u>SIZE</u>	Ø4,3 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Color Card Small ECO

Ultra slim smooth USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	6,0 × 3,0 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Cardboard

In this USB stick the memory chip is inserted in a corrugated cardboard with a thickness of just over half a centimetre. The material is the same as that usually used for packaging and consists of several surfaces of flat paper alternating with corrugated paper, linked together by natural adhesives.

<u>SIZE</u>	6,1 × 2,8 × 0,8 cm
<u>MATERIALS</u>	Carton
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Paper Drive

Standard size, square profile USB flash-drive made from recycled cardboard. The ecological style and essential lines make it the ideal gadget to promote environmental sustainability or paper industry products. It can be customised on both sides with silk-screen printing.

<u>SIZE</u>	6,0 × 2,8 × 0,9 cm
<u>MATERIALS</u>	Carton
<u>PRINT</u>	Silk-screen Printing

## Color Card ECO

Ultra slim smooth plastic USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	8,3 × 5,2 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Stiff ECO

Our classic Stiff USB stick now in an eco-friendly version made of recycled plastic. Standard rectangular shape, it is equipped with a removable cap and hook at the end to apply straps and accessories.

<u>SIZE</u>	7,4 × 2,0 × 0,8 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Twister Rubby ECO

Ultra slim smooth USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Recycled plastic + Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Twister Wood

The all-time favorite model comes also in an ecologic version: try this wooden model available in three materials maple, walnut and Bamboo.

---

<u>SIZE</u>	●●● 5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut + Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Twister Reloaded

The most popular USB stick ever in an eco-friendly version made of recycled plastic. This material has a hazel colour with a particular mélange effect. In addition to the aesthetic result, the strength of this key is that it allows you to give new life to recycled plastic, fully adopting the ecological spirit.

---

<u>SIZE</u>	● 6,0 × 1,8 × 1,0 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Razor Wood

Wooden USB flash-drive with a rectangular shape and extremely compact in size, available in three types of material: Bamboo, Walnut and Maple. Inspired by the rotating motion of traditional razors, it features a swivel-opening mechanism to expose the connector, making it extremely practical to use.

---

<u>SIZE</u>	●●● 3,7 × 1,7 × 0,5 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut + Plastic
<u>PRINT</u>	Silk-screen Printing, Embossing

## Limb

USB flash-drive that combines technology with the warm characteristics of wood. It has a standard oval shape and is equipped with a magnetic closing cap. It is available in three models: Bamboo, Walnut and Maple. It can be customised on both sides with silk-screen printing or resin relief.

---

<u>SIZE</u>	●●● 6,1 × 2,3 × 1,0 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut
<u>PRINT</u>	Silk-screen Printing, Embossing

## Hoop

USB flash drive in recycled plastic, extremely practical to carry around thanks to its clip and its small size. Recycled plastic can change colour depending on the mix used. This should not be considered a defect, but a unique characteristic of the product.

---

<u>SIZE</u>	● 4,2 × 3,0 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Tock

Wooden USB flash-drive available in three models: Bamboo, Walnut and Maple. It has a standard square shape and is equipped with a removable cap with a magnetic closing system. Its essential design gives the flash-drive a minimalist style, which is however softened by the wood.

---

<u>SIZE</u>	●●● 6,0 × 1,8 × 0,9 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut
<u>PRINT</u>	Silk-screen Printing, Embossing

## Compact

Compact is a USB flash drive with a Type C connector and metal shell. Its minimal and compact design makes it practical and versatile for transferring data between various next-generation devices such as smartphones, PCs, etc.

---

<u>SIZE</u>	●●● 3,6 × 1,9 × 0,6 cm
<u>MATERIALS</u>	Aluminium
<u>PRINT</u>	Silk-screen Printing, UV Printing, Laser Engraving

## Iron Stick

A metal USB flash drive with a compact design and silver colour. The memory chip is housed inside the shell, which is shock resistant and protects it from water and dust. The product also has a notch at the end that allows laces and accessories to be placed through it.

<p>●</p> <p><u>SIZE</u></p> <p><u>MATERIALS</u></p> <p><u>PRINT</u></p>	<p>4,3 × 1,2 × 0,4 cm</p> <p>Metal</p> <p>Silk-screen Printing, UV Printing, Laser Engraving</p>
---	--

## Iron Stick 2

A metal USB flash drive with a compact design and silver colour. The memory chip is housed inside the shell, which is shock resistant and protects it from water and dust. It can be customized on 2 sides via screen printing, laser engraving and UV printing.

<p>●</p> <p><u>SIZE</u></p> <p><u>MATERIALS</u></p> <p><u>PRINT</u></p>	<p>5,0 × 1,2 × 0,4 cm</p> <p>Metal</p> <p>Silk-screen Printing, UV Printing, Laser Engraving</p>
---	--

## Iron Hook

A metal USB flash drive available in the classic silver colour. The memory chip is housed inside the shell which is shock resistant and protects it from water and dust. It is customizable on 2 sides through screen printing, laser engraving and UV printing.

The compact design, combined with the carabiner hook at the end of the product, allows for easy carrying even when using laces and accessories.

<p>●</p> <p><u>SIZE</u></p> <p><u>MATERIALS</u></p> <p><u>PRINT</u></p>	<p>5,7 × 1,2 × 0,4 cm</p> <p>Metal</p> <p>Silk-screen Printing, UV Printing, Laser Engraving</p>

# Why should I choose a USB 3.0?

Have you ever had to deal with speed-related issues when using a USB interface? A low read and write speed can really test our patience. This probably happens because you didn't know that there is a valid alternative,

and it's called USB 3.0.

USB 3.0 technology has revolutionized the external memory drive market, as it provides great advantages in terms of performance.

## What advantages?

### – Data transfer speed.

This is the main advantage: in terms of numbers, we're talking about a speed that is ten times faster than USB 2.0 technology. However, it must be noted that such speeds can only be reached if the USB port being used supports this technology.

### – Compatibility.

Cables and flash-drives that use 3.0 technology are backwards compatible, which means that they can easily be used with USB ports that have 2.0 technology.

## How to recognize?

Aesthetically, there is a way to distinguish between a 3.0 and a 2.0 port or connector. The contacts base on the inside is blue, whereas for the latter it is white.

Search in our catalogue for USB flash-drives with 3.0 technology, look for the mark and find all the models available!

USB 3.0

## Bend

Metal USB flash-drive available in silver. The memory chip is housed within the body, whereas at the other end there is a large functional round hole for threading cords and accessories. This USB flash-drive is extremely compact in size, with a striking yet simple style.

<u>SIZE</u>	● 4,9 × 2,2 × 0,5 cm
<u>MATERIALS</u>	● Metal
<u>PRINT</u>	● Laser Engraving

## Easy

Plastic USB flash-drive available in a smooth or rubber version. The profiles have rounded edges and a flashing LED indicates operation when it is connected to a computer. It is equipped with a removable cap and a functional hook at the end to apply straps and accessories.

<u>SIZE</u>	● 6,5 × 2,0 × 0,8 cm
<u>MATERIALS</u>	● Shiny plastic/Rubberized plastic
<u>PRINT</u>	● Silk-screen Printing, CMYK Printing

## Leather Classic

Imitation leather, rectangular-shaped compact USB flash-drive embellished with metal profiles and rounded edges. It is equipped with a removable cap and a functional mobile hook fixed to one end to apply straps and accessories.

<u>SIZE</u>	● 6,6 × 2,2 × 1,1 cm
<u>MATERIALS</u>	● Synthetic Leather + Plastic
<u>PRINT</u>	● Silk-screen Printing, Embossing

## Clip

A plastic USB flash-drive inspired by the shape of a paper clip. It is the ideal gadget to attach digital content to documents, such as creating folders for meetings and events. It is extremely compact as a result of the latest generation COB chip.

<u>SIZE</u>	● 3,6 × 1,4 × 0,5 cm
<u>MATERIALS</u>	● Shiny plastic
<u>PRINT</u>	● Silk-screen Printing

## Twister Rubby

Rectangular, compact USB flash-drive. It is equipped with a metal rotation cap with a customisable surface. It has a small functional ring at the end to apply straps and accessories. The Twister-Rubby model is one of the most popular models sold.

SIZE

5,8 × 2,0 × 1,0 cm

MATERIALS

Plastic + Aluminium

PRINT

Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Twister Color

Its key asset is the unlimited selection of colors: starting from a minimum order quantity of just 100 pieces it can be customized with any Pantone colors both on the rotating part and the body. Feel free to create your own creative combination of colors!

SIZE

5,8 × 2,0 × 1,0 cm

MATERIALS

Plastic + Aluminium

PRINT

Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Stiff

Plastic USB flash-drive available in a smooth or rubber version. Standard rectangular shape, it is equipped with a removable cap and hook at the end to apply straps and accessories. It can be customised on both sides with silk-screen and CMYK printing.

SIZE

7,4 × 2,0 × 0,8 cm

MATERIALS

Shiny plastic/Rubberized plastic

PRINT

Silk-screen Printing, CMYK Printing

## Penny

This multi-functional product is a perfect business gift as it combines three functions that we perform in our offices on a daily basis: writing on paper, archiving files on memory chips, tapping on tablet or work tool touchpads.

SIZE

14,3 × 1,4 cm

MATERIALS

Plastic + Aluminium

PRINT

Silk-screen Printing

## FlashKey Square

Metal key-shaped USB flash-drive with a square end. This flash-drive has a clean design and is ultra slim as a result of the latest generation COB chip. It is equipped with a functional slot to apply straps and accessories, and is ideal to hook onto key chains.

SIZE

5,6 × 2,4 × 0,2 cm

MATERIALS

Metal

PRINT

Silk-screen Printing, Laser Engraving

## Tie

Metal USB flash-drive with a striking yet simple, slim-line design. The memory chip is housed within the body, and there is silicone loop at the other end to which a small keyring is attached, which is useful for threading cords and accessories.

SIZE

7,7 × 2,0 × 0,5 cm

MATERIALS

Metal

PRINT

Laser Engraving, Black Laser

## Vortex

Metal USB flash-drive available in silver and gold. The slightly satin and shiny finish enhances the sophisticated vortex motive on the surface. Vortex has an essential, compact design and is equipped with a removable cap. It can be customised on both sides with silk-screen printing or laser engraving.

<u>SIZE</u>	● ● 5,1 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Z-Drive

Plastic and metal USB flash-drive that is ultra compact as a result of the latest generation COB chip. Z-Drive is a model exclusively manufactured by us. In 2009, its design won the IF Design Award. It can be customised on both sides with silk-screen printing and laser engraving.

<u>SIZE</u>	○ ● 4,0 × 1,8 × 0,6 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Sticker

Credit card shaped USB flash drive with a see-through plastic body which is fully customisable with a four-colour printing adhesive sticker. Measuring only 2mm in width, this USB can fit in your wallet, just like a business card. The adhesive can be printed in four colours.

<u>SIZE</u>	○ 8,5 × 5,4 × 0,2 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	Adhesive Label

# What is OTG technology?

USB On-The-Go (OTG) is a standardized specification for USB connections that allows a device to read data from a USB connection without requiring a PC.

Our USB flash-drives with On-The-Go technology are equipped with a standard USB connector on one side and a micro-USB connector on the other. This means you can connect your USB flash-drive directly to a smartphone or

digital camera or any other device without any wires or cables, to read and transfer your data quickly and immediately.

The USB flash-drives OTG are compatible with Android operating system.

## Twister OTG

### Twister OTG Type-C

USB flash-drive made of rubber plastic and metal equipped with an extra "on the go" connector. The OTG USB flash-drive can be connected directly to the USB port on the smartphone or digital camera, for transferring and saving data quickly and immediately.

<u>SIZE</u>	●   ○ ● ● ● ● ● ● ● ● 6,8 × 1,9 × 1,0 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Bullet OTG Type-C

Aluminium flash drive with extra "on the go" connector. Bullet OTG Type-C features a rotating system with a customisable surface and a small hole for laces and accessories. The silver-coloured surface can be customised on both sides in four-colour process or laser.

<u>SIZE</u>	● 4,0 × 1,2 × 0,7 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Laser Engraving, CMYK Printing

## Chic

Ultra small metal USB flash drive as a result of the latest generation COB chip. The essential design and use of metal give it an elegant, sophisticated style. It opens by means of a rotary movement on one side. It is equipped with a small functional ring to apply straps and accessories.

	● ● ●
<u>SIZE</u>	3,0 × 1,2 × 0,6 cm
<u>MATERIALS</u>	Metal
<u>PRINT</u>	Laser Engraving

## Barracuda

USB flash-drive with a modern and essential design. Inside the plexi section there is a LED that lights up when the key is connected to the computer, enhancing the logo on the surface or inside the plexiglass. Barracuda is in fact customizable through three-dimensional laser engraving in the plexi part.

	● ● ● ● ●	○ ● ● ● ● ● ● ● ●
<u>SIZE</u>	4,5 × 1,2 × 0,5 cm	
<u>MATERIALS</u>	Plastic + Aluminium	
<u>PRINT</u>	Laser Engraving, Internal laser Engraving	

## Barracuda Color

The plexi part, available in five shades, allows for three-dimensional laser engraving, a printing technique where the logo is engraved with a permanent result, and is not subject to wear and tear, enhanced by the effect of the LED lighting. The metal surface can also be customised with a printed logo.

	● ● ● ● ●	○
<u>SIZE</u>	4,5 × 1,2 × 0,5 cm	
<u>MATERIALS</u>	Plastic + Aluminium	
<u>PRINT</u>	Laser Engraving, Internal laser Engraving	

## Lamp

Metal USB flash drive with an essential and slim design a memory chip that is housed inside the body. This USB is available in silver colour and its peculiarity is the customizable LED logo on the front in various colours such as green, white, blue and red.

	● ● ● ● ●	○ ● ● ● ● ● ● ● ●
<u>SIZE</u>	7,6 × 2,5 × 0,5 cm

## Origami Phone

Origami Phone is a foldable mobile phone holder that functions as a stand, handle and card holder. It also provides a pocket in which you can insert up to three cards or credit cards, so that you can take them with you without using your wallet.

●  
**SIZE** 10,6 × 6,5 × 0,4 cm  
**MATERIALS** Plastic  
**PRINT** CMYK printing, UV Printing

## Mirror

Mirror is a magnetic, customisable computer accessory that keeps your smartphone at the same level as your monitor, making the device more convenient to use and increasing your productivity. The stand has an adhesive side to secure it to the monitor and a magnetic side to securely attach the

smartphone for a multiscreen experience.

Mirror is available in two colours - black and white - and features a print area on one side which can be customised using silk-screen printing and UV printing techniques.

<u>SIZE</u>	○ ● 12 × 3,0 × 0,5 cm
<u>MATERIALS</u>	Plastic
<u>PRINT</u>	8,0 × 2,5 cm Silk-screen Printing, UV printing

## Brick

Brick is a FSC certified bamboo desk phone holder that allows you to keep your device in an optimal position for reading and viewing videos. It is made of a natural material that can have different and unique shades of color and can be customized with laser and screen printing.

<u>SIZE</u>	● 6,0 × 2,6 × 1,5 cm
<u>MATERIALS</u>	Bamboo
<u>PRINT</u>	Silk-screen Printing, Embossing

## Raise

Raise is an aluminium stand that lets you raise your smartphone to be positioned at eye-level for ergonomic use. Its articulated arm allows for viewing height adjustment, and the smartphone's suspended position makes for improved ventilation and heat dissipation during use.

The 8x6x1cm size means it is easy to carry around, and its aluminium material makes it a stable accessory that can support all kinds of smartphones. Raise features a printing area that can be customised with logos and graphics using laser engraving.

## Wally

Plug&Play webcam with an integrated microphone, full HD lenses and a universal clip to connect it to the computer or other surfaces. Once connected to the PC, the webcam is immediately recognised as a peripheral device and is ready to make videocalls, take jpg photos or make video recordings in avi formatting. It is fitted with a 120cm cable and a 2.0 USB connector. The resolution is 1920x1080 pixel. With a frequency of 30 frames per second, the quality of the video is excellent, the images are clear, and the colour contrast is balanced. Inclination and rotation are fully adjustable to find the perfect framing. The wide-angle lens also guarantees ample field of vision. The integrated microphone with sound reduction

ensures that voices come across clearly, even in the presence of background noises. The webcam is compatible with all operational systems. It is available in black and customisable with UV print and silk-screen printing logos.

## Privacy Set

A set of products dedicated to protecting digital data and the IT safety of smartphones, tablets and computers. It features a USB data blocker; an anti-RFID card and 5 webcam covers. USB data blocker is a USB adaptor which acts like a filter when you are charging your phone from a public source which is considered to be unsafe (for example, USB ports in an airport). The device impedes the transfer of data (both incoming and outgoing, such as malware), allowing only for the power required to charge the battery to be used. The anti-RFID card ensures that credit cards are fully protected from data theft and are fully isolated from magnetic sources. It looks like a card and needs to be kept in your

wallet. Lastly, the webcam cover is a small adhesive plastic sticker with a sliding open-close system to apply to your computer webcam with the aim of preventing hackers or viruses to use your device's webcam.

○	SIZE	Packaging: 12,0 × 12,5 × 3,0 cm

# The importance of rebranding: what is it and why promotional gadgets are crucial

By definition, rebranding is the process of strategic change of a company's brand identity. It may consist in choosing a new name, logo, or communication strategy, with the intention of reshaping its identity and positioning it differently in the reference market.

## A gadget that really talks about you

Your logo and your products are unique and this is the best way to enhance them

## Even the budget is customized!

Different price brackets, to suit any budget

## Big projects, minimum quantities

The minimum order quantity is just 100 units!

## 3D and 2D reproduction of any shape or logo!

Ultimate styling appeal and excellent results in terms of shape and colors

## Make up your own gift set

You can create an entire range of different products with the same customized shape

YOUR LOGO

OUR PROJECT

YOUR PRODUCT

Sooner or later, all companies need to renovate and "refresh" their corporate image, or address new markets and targets, or strengthen their relationship with their original target.

Whatever the case, one of the most effective ways to rebrand a corporate logo is to make company gadgets to be distributed to customers and employees and on which to imprint the elements of the new brand image.

Our 100% Custom gadgets are simply perfect for the job, as they allow you to reproduce any three-dimensional shape, and to produce a custom-made promotional accessory, whatever the initial idea.

Any other product of this catalogue is actually a perfect candidate for a rebranding project, try a customized promotional gadget, look through these pages for some inspiration!

# 100% Custom

We offer fully customizable corporate and promotional merchandise that includes gadgets in any shape, color combination, and print. We can reproduce any logo or subject in both 2D and 3D formats, ensuring limitless customization and combining identity, sustainability, and functionality at

the same time. We are constantly committed to researching the best materials to ensure the creation of sustainable projects throughout their production and lifecycle, while maintaining our dedication to producing unique and customizable product media.

Urgent orders? No problem at all.

# Fast delivery

The products ready for delivery are shipped from our premises within 24/48 hours from the order confirmation. Delivery takes place in 24 or 72 hours depending on the destination

area and the type of product. Power Bank, speakers and all battery-powered products may have longer delivery times because they do not allow shipping by air.

## 24h

without customization

## 48h

with your logo printed on it

# Tailored projects to promote your uniqueness

We work in the consumer electronics market since more than 10 years and we are obsessed with catching innovations as they approach. When we select the products that will be later included in our promotional catalogue, we strive to anticipate our clients' needs, eager to provide solutions for any request we may receive.

**Every company is one-of-a-kind.**

However, every company is unique and so are its needs. That is why no standard catalogue could ever meet individual requirements, but we are ready also for this!

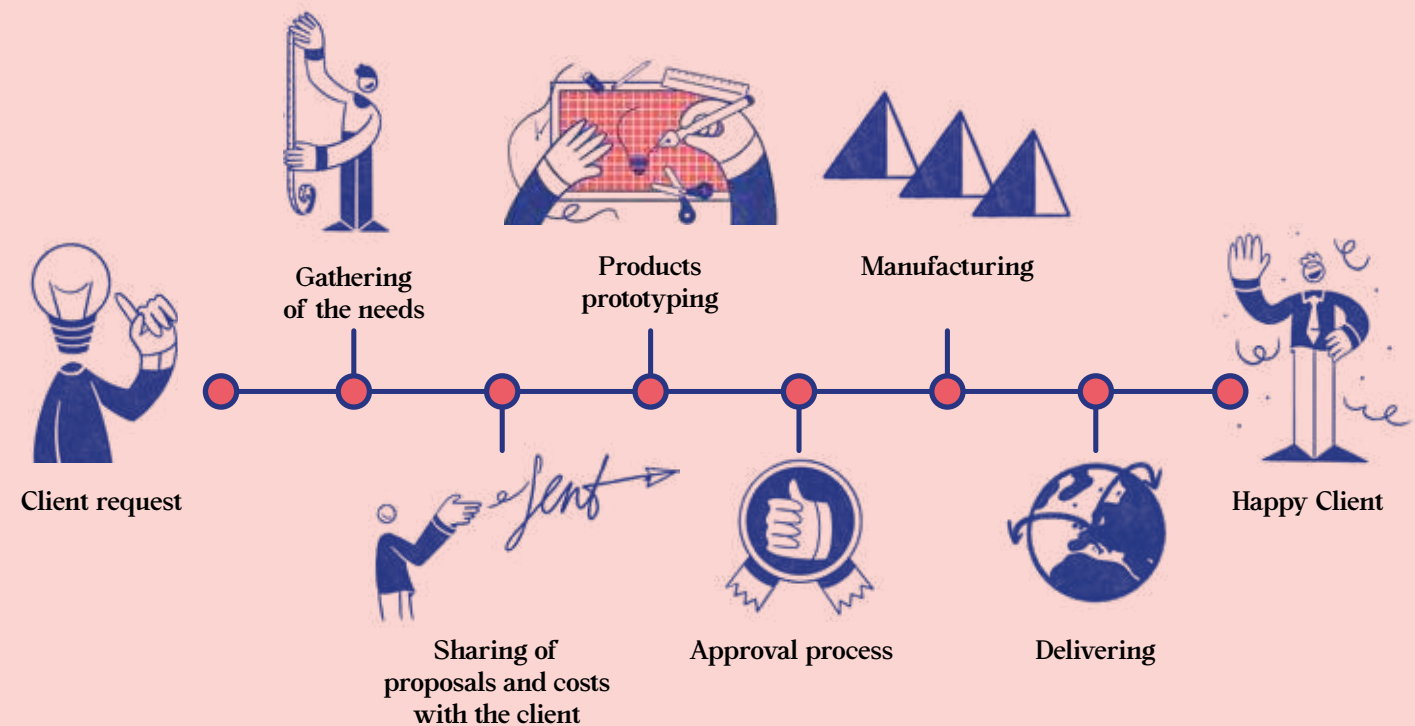

**“We are specialized in delivering bespoke projects across any industry sector and for any promotional enterprise.”**

We develop tailored and extra-catalogue products based on the requirements of our clients, so if you haven't found yet what suits you perfectly, all you need is calling on us for a made-to-measure project.

**The production line from enquiry to delivery.**

From the first touch point to manufacturing, we work closely with our customers to create their company's original equipment.

## Let's get real: here is an example of our tailored projects.

### The Privacy Set: How to make the most out of the open market offer

One of our clients appointed us to develop a product focused on data protection and IT security. Our research brought us to three products that were not yet included in our catalogue: a USB data blocker, a RFID card and a webcam cover.

**“This product was so successful that we decided to create a similar one to be included in our catalogue, you will find it on page 125.”**

The first is an adaptor to place between the charging cable and the USB socket, that allows you to charge safely from any USB socket with no risk of data transfer to/from your device.

The RFID card should stay in your wallet to prevent the theft of the credit card data, and the webcam cover is useful to prevent any virus or hacker from using the computer's video camera.

Together these three objects are an exhausting combination of the data security essentials. All of them have been personalized with the company logo.

We also completed the set with a custom packaging in rigid cardboard and a manual with the products' descriptions and instructions.
